THEATRE SEATING

Shown here in luxurious leather, the Federation is available in a variety of covering options.

All KOVACS products are constructed from the highest quality New Zealand timbers, the best available componentry, superior cushioning materials and premium quality leathers and fabrics. When you choose KOVACS you are investing in lasting good looks, comfort and durability, brought together with world-class design.

When the lights dim and the screen sparks to life, your eyes and ears aren't the only senses deserving of special treatment. The new

Federation series of luxury theatre seating redefines the very nature of enjoying the cinema. As more and more homes seek to emulate the sights and sounds of the movie theatre, the Federation series brings the current trend full circle. The seating is designed to bring home comfort back into the theatre, combining the best of both worlds for one unique viewing experience. It's the difference that attentive design, superior materials and quality construction makes.

A key development is in the adaptive features of the chair design. While the Federation comes as one piece, it is in reality two separate units. With a quick stowing of armrests two people are able to share more comfortably the excitement of the movie-going experience. To further improve this, the motorised reclining action can be easily activated using an embedded switch in the armrest.

The cushioning material has been enhanced in key areas with the addition of highly adaptive

foam. This foam was initially designed for specialist medical care - it has the best possible support to maintain even, comfortable weight distribution. The high back features an adjustable headrest - the ultimate in comfort fine tuning. The overall ergonomic form has been meticulously shaped to maintain the correct positioning for the human body at rest. Silver screen luxury is now no longer confined to the silver screen. The Federation series is at the forefront of theatre-going innovation.

The two single units can be moved separately then are combined to create the settee and are kept together with a professional "no tools required" joining device.

The motorised reclining switch has been carefully positioned for ease of use.

Each seat has a removable foot guard for ease of replacement.

DIMENSIONS (CM)	W	D	H
Single Unit	84	94	108
2 Seater Settee	166	94	108
Seat height			48.5
Arm height			58

With a quick stowing of armrests two people are able to far more comfortably share the excitement of the movie-going experience.

Federation is a N.Z. Registered Design.
