LOUNGE

All KOVACS products are constructed from the highest quality New Zealand timbers, the best available componentry, superior cushioning materials and premium quality leathers and fabrics. When you choose KOVACS you are investing in lasting good looks, comfort and durability, brought together with world-class design.

With bold styling and solid construction the Lincoln evokes a classical approach to furniture design. It's the look of yesteryear, updated for the here and now.

As with the original Chesterfield, the deep buttoning and upright bearing here provides an enduring sense of sophistication.

However the Lincoln goes beyond its influences. First, we developed the seating to deliver far greater comfort to a range of body shapes. Then we placed high cone legs to add a lightness to its appearance, refined the dimensions for a more compact overall footprint and ensured that a 360° design approach delivered equal impact in open-plan spaces.

What resulted is a settee suitable for everything, from enhancing the small apartment to improving the upmarket hotel. With construction from Southland Beech and durable, high-density foams this piece will continue to enchant in the years to come.

The solid wood legs are polished to a satin finish and are available in four standard colours.
