CHAIR

All KOVACS products are constructed from the highest quality New Zealand timbers, the best available componentry, superior cushioning materials and premium quality leathers and fabrics. When you choose KOVACS you are investing in lasting good looks, comfort and durability, brought together with world-class design.

Whimsical from some angles, serious from others, the Baxter is for those who appreciate the unexpected. The striking form uses two frames, each independent of the other. A southern beech external frame has a fine-grained texture providing an exquisite finish.

The silver beech show wood frame is polished to a satin finish and is available in six standard colours.

The internal frame is constructed from MDF and beech, the strength and longevity of the latter timber ideal here.

Careful consideration has also gone into the foam cushioning to support this frame. So, be it commercial or residential spaces, the compact Baxter is designed to create an impression. However, like all our furniture, it's to be enjoyed rather than observed.

DIMENSIONS (CM)	W	D	H
Chair	70	84	75
