## LOUNGE

*All KOVACS products are constructed from the highest quality New Zealand timbers, the best available componentry, superior cushioning materials and premium quality leathers and fabrics. When you choose KOVACS you are investing in lasting good looks, comfort and durability, brought together with world-class design.*

Classic, clean and contemporary, the Jed's simplicity of design belies its focused bearing and clever adaptability. Sitting upon a rigid steel base, the settee may at first seem

angular, even severe. But that potential sharpness is circumvented with edges softened by gentle curves and the careful balance overall of aesthetic appeal and physical comfort. This provides a fresh settee with confident simplicity and style.

The charcoal coated base is standard, devised to suit any number of coverings, making the Jed a truly versatile piece. It suits the residential lounge and the commercial waiting room (ensuring people will be happy to linger).

Jed's adaptability is further enhanced with the choice of a wide or narrow arm and options to change base to top stitched or timber plyth and wooden legs.
