## SETTEE

*All KOVACS products are constructed from the highest quality New Zealand timbers, the best available componentry, superior cushioning materials and premium quality leathers and fabrics. When you choose KOVACS you are investing in lasting good looks, comfort and durability, brought together with world-class design.*

Nowadays, with little or no separation between lounge, dining and kitchen, furniture is often positioned to define and shape both a space and its use. This furniture needs to work from every angle, and filling a functional, physical and aesthetic role from any perspective can be difficult.

That's why we're so proud of the Loft. At once inviting, enchanting and unexpected, the settee is somewhat of a visual contradiction – a sturdy, grounded and enduring piece that also appears to gracefully float above its surroundings.

With captivating design appeal from all angles the Loft's clean, efficient lines provide room to stretch out and the highest quality commercial foam entices you to do so.

Construction materials deliver further key benefits. The use of steel with a clear powder coat finish as standard, provides structural and design strength while also giving the Loft a unique weightless look and feel. Southland beech is also important – being strong and light this timber is ideal for framing. Two luxurious feather filled cushions come standard with the Loft.

DIMENSIONS (CM)	W	D	H	SH
3.5 Seater	245	100	76	46
3 Seater	213	100	76	46

SH = Seat height.

Loft's 3½ seater includes a centre support leg.
