SWIVEL CHAIR

All KOVACS products are constructed from the highest quality New Zealand timbers, the best available componentry, superior cushioning materials and premium quality leathers and fabrics. When you choose KOVACS you are investing in lasting good looks, comfort and durability, brought together with world-class design.

The supple, curved and modular bearing provides encompassing support to the body and steel legs that echo the unique angles of the praying mantis - the Mantis swivel chair certainly has its contrasts.

The art deco aesthetic delivers an edgy look and feel while offering simple functionality. The clean, angular lines and laser-cut steel foundation highlight aesthetic style while incorporating structural strength.

Such striking design does not come at the cost of comfort or usability, with luxurious cushioning the Mantis encourages rest and relaxation – and its small footprint fits easily into a range of different spaces within a residential or commercial environment.

There's flexibility in the final touches too - with different types of steel finishing available, and your choice of leather or fabric to suit your individual taste.

The steel swivel base come standard with a clear powder coat natural finish.

DIMENSIONS (CM)	W	D	H	SH
Chair	64	70	72	44

SH = Seat height.
