FRANKIE CHAIR

The reasoning behind the name of this chair should become obvious when it's viewed alongside our popular Franklin model. While the Frankie has the distinctive style and well-padded comfort of it's bigger brother the lower profile, slimmer hind leg and compact footprint of this chair make it suited to a wider range of interior environments in both commercial and residential settings. With huge flexibility in fabric styles and small-but-confident charm this is a chair that can fit in or stand out, with a button look back or plain – the choice is yours.
