LOOP OTTOMAN

Made to order, the Loop Ottoman is a fun way to add an extra seat, footstool or side table. Named for its racetrack shape of curved ends and long straight sides, Loop comes in two heights - with twin powder coated steel legs or close to the ground on glides. Made from beech and MDF with padded sides and top, the 50mm quality foam on top is soft for sitting yet firm enough for use as a table. Loop looks great upholstered in fabrics or leather.
