AXLE LOUNGE

Named for the robust steel frame at its heart, the Axle is a minimalist masterpiece with complex attraction. Simple and masculine in form, the imposing steel frame is striking from a distance while providing industrial strength in functionality. This frame sets up a surprising contrast to the comforting lines of the cushioning, which combines feather and foam. The feather-filled arms create a plush, pliable surface to sink into which, together with the crafted seat and back, brings you a new level of comfort. Although it seems incongruous, the Axle really is strong and soft at the same time. It's a blend of the qualities most valued by Kovacs.
